**Date of Event:** 18.12.2025 and 19.12.2025

**Organized By:** Deshabandhu Mahavidyalaya

**Name of the Resource Person:** External Experts on 19.12.2025

### **Brief Report**

The college successfully organised the Freshers' Welcome followed by the Annual Fest, creating vibrant platforms for new students to integrate and showcase institutional talent. The inauguration of event started by kindling the lamp by our college Principal Dr. Tridip Santapa Kundu along with the governing bodies of the college.

As part of the Annual Fest, the college administration instructed every department to put up a stall representing their respective departments. The objective of this initiative was to showcase academic activities and practical applications of each department in an interactive manner. The department of economics prepared and managed an informative stall themed "Understanding the Indian Economy". The stall focused on educating participants about the contribution of three sectors namely agricultural, industrial and service sectors to GDP, and employment challenges using real-time data.

The preparation of the stall began well in advance with students' team under faculty guidance. Students played a major role in organizing and managing the stall. The stall was decorated with charts, graphs, and models to present economic data in a simple and attractive manner. A timeline showing the growth of the Indian economy, pie charts of sector-wise contribution to GDP, and posters highlighting current unemployment scenario were displayed. Handmade models were used to make the stall visually appealing. Students explained the concepts confidently to visitors and answered their questions. The stall received an encouraging response from teachers, students, and guests. The annual fest brought students work together as a team work by sharing their ideas. It also helped them to develop their communication skills. Overall, the preparation and presentation of the stall on the Indian Economy was a great success and added significant educational value to the Annual Fest.

Thank you
