India, PIN – 713 331

TITLE: WATER CONSERVATION FOR FUTURE GENERATION

Date: 14.12.2022

Venue: Ethora, Ethora Gram Panchayat

No of Students Participated: 12

Objectives:

- Aware the people of the village Ethora about the significance of water conservation in and environmental degradation.
- Promote water-saving behaviours and technologies that can be adopted at the individual, household, and community levels.

Beneficiaries : Residents of the village

Programme outcome and impact:

- Increased knowledge in water conservation
- Increased community engagement and Participation in water conservation activities

Report: This programme is an initiative aimed at raising awareness about the importance of water conservation and advocating for sustainable water management practices at Ethora village under Ethora Gram Panchayat. Recognizing the critical role of water in sustaining life and ecosystems, this program seeks to empower individuals, communities, and organizations to take proactive steps towards preserving this precious resource for the benefit of future generations. Hands-on demonstrations showcase water-saving techniques and technologies, such as rainwater harvesting, drip irrigation etc. Participants learn how these practices can reduce water consumption, lower utility bills, and minimize environmental impact. Collaborative projects, such as community gardens, clean-ups of wetlands, and water-wise landscaping initiatives should be taken.
