Sub: Collaborative activities between Deshabandhu Mahavidyalaya (DM) and Krishna Industry

Dear Sir,

This is to certify that under the Memorandum of Understanding (MoU) signed on 6th day of January Two Thousand Twenty (06/01/2020), Between Deshabandhu Mahavidyalaya (DM) and Creative Communication and Development , several collaborative activities are going on successfully. These include need based curriculum design idea as required to work in industry/business organisation, industrial training, internships and apprenticeship. Both parties have adhered to the terms outlined in the MoU, fostering a productive partnership aimed at enhancing student skills and knowledge. During the apprenticeship, internship and on job training, the students were found average in their attitude towards acceptance of job role as assigned and accordingly we suggest to undertake attitudinal training for the students so that they can cope up with the job they are assigned on completion of their course of study in college

We express our heartfelt appreciation and gratitude to the students, staffs from Deshabandhu Mahavidyalaya for their dedication.
